## **G2 Commercial Construction, Inc. receives Career Builder honor from Butler Manufacturing™**

**Kansas City, Mo., March 21, 2016** – G2 Commercial Construction, Inc., a general contractor in Kennewick, WA has been designated as a Career Builder with Butler Manufacturing™. Butler provides design-build construction solutions and innovative building technology to the nonresidential market. Only Butler Builders who have demonstrated total competence in design and construction are eligible for this highest level affiliation.

Founded in 2005, G2 Commercial Construction, Inc. has 35 employees and has been an authorized Butler Builder for 5 years. Recent projects include the Eastern Oregon Trade and Event Center in Hermiston, Oregon (Butler Widespan with MR-24 roofing system) and Grimmway Enterprises Phase II Expansion in Pasco, Washington (Butler Widespan with MR-24 roofing system). Upcoming projects include the Boardman Aquatic and Recreational Center in Boardman, Oregon (Butler Widespan with MR-24 roofing system), the Excalibur Auto Showroom in Kennewick, Washington, and G2 Construction's own maintenance and storage shop.

### **About G2 Construction**

G2 Commercial Construction, Inc. is proud to be the Tri-City Region's only authorized Butler Builder since 2011. Our own office is a testament to the expert craftsmanship that G2 represents as well as a showcase to the versatility of the Butler Building line. Superior service, expert staff, and quality construction is what defines us. For more information, visit: [www.g2construction.net](http://www.g2construction.net)

### **About Butler Manufacturing™**

Butler Manufacturing™ provides a comprehensive combination of design-build construction solutions and innovative building technology to the nonresidential market. Every Butler® building solution is backed by unrivaled research and testing, ensuring that Butler building systems perform to the highest standards. Through a network of more than 1,400 Butler Builder® dealers worldwide and corporate accounts services, Butler addresses the demand for environmentally friendly and energy-efficient design in community, commercial and industrial buildings. Butler is headquartered in Kansas City, Missouri, and is a division of BlueScope Buildings North America, Inc. For more information, visit [www.butlermfg.com](http://www.butlermfg.com).
